Everything Starts with Mathematics

Everything Starts with Maths (2021-1-TR01-KA220-SCH-000032799) is an Erasmus+ project co-funded by the European Union that aims to help students across Europe overcome their difficulties in the subject of mathematics and develop creative and incisive methods to help them thrive in this academic area.

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

SPAIN AND GREECE HOST STUDENTS MOBILITIES

The first student mobility was hosted in Spain!

Colegio Montesclaros in Madrid, Spain, hosted the first exchange of pupils between 16-20 October 2023. During five days, students from Türkiye, Spain, Romania, Greece and Portugal gathered at the Spanish capital to perform the first activities with trainees of the project. Participants also had the chance to visit El Escorial, a UNESCO World Heritage Site, as well as Madrid's the most emblematic monuments in the city centre!

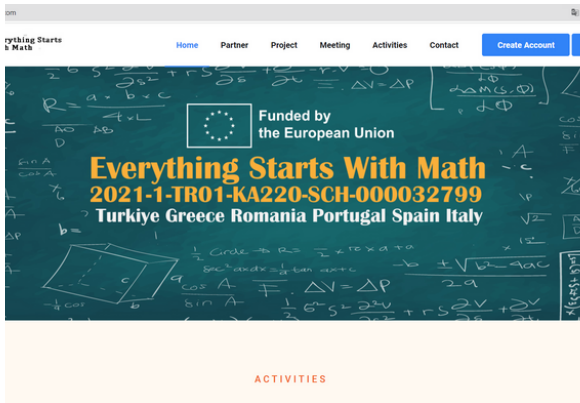

The second student mobility was hosted in

Greece! Aristotelio Ekpedeftirio Serron, in Serres, hosted the second student mobility between 15-19 April 2024. Participants from Türkiye, Spain, Romania, Greece and Portugal travelled to Greece for a week of math activities! Students and teachers worked and test the mobile application that will be soon launched for iOs and Android! The cultural visits to Phillipi Archeological Site, and to the city of Kavala and Thessaloniki enriched the experience of all participants!

Everything Starts with Mathematics

FOLLOW OUR PROJECT!

The consortium has developed a **website** for the project! All the information and activities are now accessible in the world wide web!

In our **social media** you can also find the latest updates!

MOBILE APP ALERT!

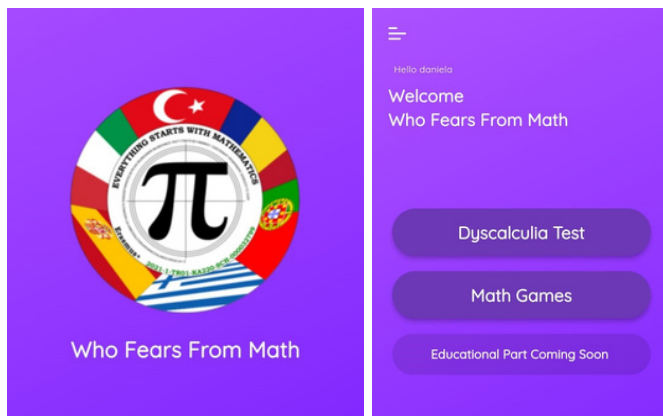

THE CONSORTIUM IS DEVELOPING THE MOBILE APPLICATION **"WHO FEARS FROM MATH"**.

Partners aim to create tests, educational material and games that might help students with mathematic difficulties.

The app will be soon available for iOs and Android. Stay tuned!
